

# Majora's mask: Link's adventure

Link travels to the map of *Termina*, where he is not only turned into a deku, but a **world-ending** moon coming to crash onto the Earth in three days.

Deku Link's first mission is to turn back into his *kokiri* self. He also finds a deku who needs a moon's tear. He finds a lost fairy in *South Clock Town*; he takes the lost fairy to *North Clock Town*, where there is a fairy shrine. Deku Link puts the lost fairy back in her place and gains the power to shoot out magic bubbles.

He then heads out still in North Clock Town; he sees a kid trying to pop a big balloon. Deku Link shoots a bubble, the balloon pops! The kid asks him if he wants to play a game of hide and seek. The kid calls four more boys. Deku Link finds all the boys; the boys tell him a secret code to enter a secret hideout. Deku Link heads to *West Clock Town*, where there is the secret hideout. There is a boy guarding it, so Deku Link tells him the code, and the boy lets him in.

There, he finds a laboratory, he looks in the telescope, he finds *Skull kid* and the moon. The moon drops a moon's tear outside, it was going as fast as a meteor! Deku Link picked it up and gives it to the deku who needed the moon's tear. The deku moves out, and Deku Link has now a deku flower. In the third day, when the festival started, he uses the deku flower to pop up of the platform and move up to the top.

When he gets there, he finds skull kid. He uses his powers to shoot a bubble at skull kid, and he dropped Deku Link's *ocarina*! He plays the **Song of Time**, and goes back to the first day, before the moon crashed.

He returns to inside the clock tower, where the mask salesman is. The mask salesman teaches Deku Link the **Song of Healing**; Deku Link turned back into kokiri Link, but now, he has a magic deku mask. The mask salesman asks for **Majora's mask**, but link does not have it. The mask salesman is furious! He tells link he must get the mask before the world ends, he has to travel to the temples, South, North, East, West. And he must defeat the bosses of those temples, so he can free the spirits of the giants, so they can stop the moon!

As Link completed the four temples and has **Epona**. Link goes to stop the moon!

Link goes to the top of the clock tower and plays the **Oath to Order**. The giants come to stop the moon, they tried as hard as they could; they stopped it. *Majora* was going inside the moon; Link decided to follow it. He fought the mask, and it was tough! But Link defeated the mask! And now, peace was restored on the **Dawn of a New Day**.
